Summary

Principal machine learning scientist leading production ML and LLM agent systems.

Experience

Principal ML Scientist — Quantra Capital, Berlin, Germany

Mar 2019 – Present

- Leads a team of 8 building risk and pricing models deployed to production with PyTorch and Kubernetes
- Designed LLM-based agent workflows for analyst research summaries
- Runs the experimentation platform used for all model releases

Machine Learning Engineer — Helix Insurance, Munich, Germany

Jan 2014 – Feb 2019

- Fraud detection models with gradient boosting and deep learning

Education

PhD, Machine Learning — Technical University of Munich

Oct 2009 – Dec 2013

Skills

Python, Java, Machine learning, Deep learning, Statistics, Large Language Models, Quantitative finance, PyTorch, scikit-learn, Kubernetes, MLflow, Leadership, Mentoring

Languages

German (Native), English (Fluent)
